
SERVICES & CAPABILITIES

Precision is an ISO certified, vertically integrated, plastic injection molding company that builds custom molds and tooling, manufactures parts and components, and performs a variety of value-added services all under one roof.

GENERAL CAPABILITIES
Performance Mold Building
Precision Injection Molding
Value-Added Services

MOLDS & TOOLING
Complete On-Site Mold Building Division
Class 105 (prototyping) to Class 101 (1M+ cycles)
Multi-cavity, family molds, interchangeable inserts

INJECTION MOLDING
High Volume Manufacturing
Small to Midsize Components
Close Tolerances

VALUE-ADDED SERVICES
Component & Product Assembly
Plastic & Metal Machining
Thermal Transfer, Pad Printing, Hot Stamping

EQUIPMENT
Modern Presses from 20 to 300 Tons
State-of-the-Art Inspection Instruments
Robotics & Work Cell Automation

QUALITY
ISO 9001:2015 Certified
Customized Sampling Plans
Detailed Quality Assurance Procedures

MATERIALS
Engineering Grade Resins
Commodity Thermoplastics
Bioplastics, Elastomers, Additives

SHORT LEAD TIMES
Production in Two to Three Weeks
Just-in-Time (JIT) Programs
Expedited Service Availability

CUSTOMER SUPPORT
Proven Delivery Performance
Friendly Customer Service
Technical & Engineering Support

ADDITIONAL SERVICES
Design for Manufacturability (DFM) Studies
Inexpensive Local Delivery
Reshoring & Tooling Relocation Assistance
