

PRECISION MOLDED PLASTICS

MOLD BUILDING • INJECTION MOLDING • VALUE-ADDED SERVICES

Precision provides services, resources and guidance to help people get the most out of their plastic injection molding.

Precision Molded Plastics is an ISO certified, vertically integrated, plastic injection molding company that builds custom molds and tooling, manufactures parts and products, and performs a variety of secondary and finishing operations all under one roof. As such, we have been a trusted supplier of Fortune 500 companies in the medical, aerospace, food and beverage, construction, agriculture and other industries for over forty years.

Conveniently located in the Greater Los Angeles area, Precision serves clients in Southern California and throughout the United States.
