

VALUE-ADDED SERVICES

SECONDARY & FINISHING OPERATIONS

Precision performs a variety of ancillary operations to provide turnkey plastic injection molding services.

In addition to world class custom mold building and high-volume plastic injection molding, Precision offers multiple secondary, post-molding operations to support its customers' manufacturing needs. Whether it's part decoration, product assembly, precision machining, or another service, we collaborate with you to find the best approach and the ideal supply chain solutions. Contact our support team today to find out more.

Conveniently located in the Greater Los Angeles area, Precision serves clients throughout the United States.
