

MAPP Recognizes 100 Most Engaged Members with MAPP Champion Program

For the first time, the MAPP organization extended a special recognition to 100 MAPP Champions. The 2018 MAPP Champion designation recognizes and honors the top 100 individuals from MAPP member companies who have demonstrated an outstanding commitment to MAPP through active participation in programs, boards and committees, events and providing assistance to others over that last twelve months.

These individuals have contributed their time and talents to the betterment of the MAPP network and plastics industry overall and have participated in at least five MAPP-sponsored activities.

Those identified as MAPP Champions exemplify the values and ideals of MAPP, including the spirit of sharing and camaraderie, individual contributions that build collective intelligence of the MAPP network, and business ethics of integrity and responsiveness. The following 100 individuals were recognized at the 2018 Benchmarking and Best Practices Conference in Indianapolis, IN, October 10-12.
